ADCO

INTRODUCTION

The Abu Dhabi Company for Onshore Oil Operations (ADCO) operates onshore and in shallow coastal waters of the Emirate of Abu Dhabi, one of the seven members of the United Arab Emirates established on December 2nd 1971.

The original concession agreement was made with Petroleum Development (Trucial Coast) Ltd. On 11th January 1939, however geological work did not begin until after the Second World War. Exploratory drilling began in Abu Dhabi in February 1950.

The first commercial oil discovery was made at Bab in 1960, and exports began from the Jebel Dhanna terminal on December 14th, 1963. In 1962, the Company was renamed the Abu Dhabi Petroleum Company, ADPC. On 1st January 1973, the Government of Abu Dhabi acquired a 25% interest, which was increased to 60% as from 1st January 1974. The Government interest is held by the Abu Dhabi National Oil Company, ADNOC. ADCO was incorporated under Law No. 14 for 1978, on 8th October, 1978 and has been responsible, since February 1979, for operations in the concession area, which after relinquishments, now covers more than 21,000 square kilometers.

The Company produces mainly from six oil fields, namely:- Asab, Bab, Bu Hasa, Sahil, Shah and North-East Bab (Dhabbiya, Romaitha & Shanayel). These fields are linked by more than four hundred and fifty kilometers of pipeline, with storage and shipping facilities at Jebel Dhanna, where tankers load crude oil for markets in many parts of the world.

COMPANY HIGHLIGHTS

1939	Concession awarded to Petroleum Development (Trucial Coast) Ltd.; PD (TC).	1993	Commissioned three additional storage tanks at Jebel Dhanna with a capacity of one million barrels each, commenced early production scheme from Jarn
1947	Geological exploration began.		

1950	Drilling of first well at Ras Sadr commenced.
1960	First commercial oil discovery-Bab field.
1962	Second commercial oil discovery-Bu Hasa field and Company name changed to Abu Dhabi Petroleum Company, ADPC.
1963	First shipment of crude (Murban) exported from Jebel Dhanna terminal.
1965	Third commercial oil discovery-Asab field, and First relinquishment of part of the concession area.
1966	Fourth commercial oil discovery-Shah field and Company Main Office moved from Bahrain to Abu Dhabi.
1967	Fifth commercial oil discovery-Sahil field.
1973	Government of Abu Dhabi acquired 25% interest in the concession assigned to the Abu Dhabi National Oil Company, ADNOC.
1974	Government interest increased to 60%.
1978	Establishment of Abu Dhabi Company for Onshore Oil Operations, ADCO under Law No. 14 for 1978.
1979	ADCO became the operating company for the concession.
1982	Drilling commenced on Hudariat and Dabbi'ya man-made islands.
1983	Commissioned Shah field.
1984	Khuff gas discovery at Hail.
1987	Completed full field development in Bu Hasa and Asab
1989	Recommissioned Bab field.
1990	Twice broke world record in short-radius horizontal drilling.

- Yaphour field, commenced Bab field oil development project and celebrated 30th anniversary of first crude shipment.
- 1994 Commissioned early production scheme from Rumaitha, Shanayel & Dabbi'ya.
- 1996 Commissioned Bu Hasa and Bab North gas injection projects and completed construction of the 4th Main Oil Pipeline.
- 1997 Completed the second phase of Housing Compound. as well as Bab-Bu Hasa Road Project.
- 1998 Completed New Headquarters Building Project.
- 1999 Completed Asab Gas Development Projects.
- 2000 Completed three projects comprising Asab and Jebel Dhanna Office/Accommodation upgrades, two new Asab frame-6 generators and Shah infill wells.
- 2001 Completed the refurbishment of Old Office Building in Abu Dhabi and the Jebel Dhanna Infrastructure upgrade.
- 2002 Completed Asab Zone A/B pilot gas injection, Bab new additional manifold, Bab infrastructure upgrade, Bu Hasa two additional manifolds and Huwaila multiphase pump installation projects.
- 2003 The following projects were completed: New RDS Manifolds (Asab), Vapour Recovery and Minimised Flaring (Asab/Sahil), Water Injection Enhancement (Sahil), Vapour Recovery and Flaring Zero Pilot (Bab), Water Injection Power Skid Replacement (Bu Hasa) and FEED completed for Onshore Power Generation Integration (Fields General).
- 2004 Highest annual oil production ever (averaged over 1200 Mbd) while honoring highest oil industry guidelines. Drilling activities witnessed considerable achievements: highest annual footage drilled (1.55 million feet & highest number of wells completed (179 wells) ever and best annual safety/environmental achievements. Completed six full field development subsurface models.
- 2005 Drilling activities witnessed considerable achievements. Commissioned Bab facilities expansion and North Bab accommodation projects. Best annual Contract performance since inception in 2001, including annual LTIF rate of 0.16.
- 2006 ADCO achieved highest annual oil production ever (about 1,363 Mbd) while honoring guidelines. Commissioned Huwaila facilities as part of the 1.4 MMbd Scheme.

OUR MISSION

ADCO acts on behalf of its Shareholders to explore, develop and produce hydrocarbons within its area of operations. In meeting our Shareholders aspirations we will operate at maximum efficiency and optimum cost with minimum impact on the environment and we will avoid harm to people. we will promote an environment of continuous improvement while maintaining the highest standards of honesty and integrity in all aspects of our business.
