

## NDC's Vision

To be the regional symbol of excellence in providing quality and efficient Drilling, Workover and associated Well Services.

## NDC's Mission

- Drill and Workover Oil, Gas & Water Wells
- No Harm to Environment, People and Visible Commitment to HSE
- Maintain the Integrity of Assets
- Satisfy Clients by Providing Efficient and Quality Services
- Pursue Emiratization of Positions
- Attract, Train & Develop and Retain Professional Workforce, in particular UAE Nationals
- Develop new businesses with objective of providing integrated services
- Ensure good Financial Returns on Investments

## Quality Policy

### NDC is committed to:

provide technically acceptable and operationally competent drilling and workover services, excel in producing consistent quality work and services within a framework that is committed to health, safety and environment.

## Health, Safety and Environmental Policy

### NDC is committed to:

provide safe and healthy working conditions to its employees, ensure safety and environment conservations throughout NDC's operational activities, continue to place a high priority on HSE by defining and closely monitoring measurable HSE targets.

## History of NDC

1972 National Drilling Company was established under a resolution of the Abu Dhabi Council of Ministers.

1973 - 1974 NDC took delivery of its first onshore rigs ND-01 and ND-02.

1975 NDC acquired its first offshore rig, and named it ND-03 Al- Ittihad.

1976 - 1979 NDC further increased its fleet capacity by two offshore rigs, ND-04 Al-Ghallan and ND-05 Al-Yasat

1980 - 1985 Offshore supply base at Sadiyat Island, a workshop and a warehouse at Buhasa were established.

NDC acquired three offshore rigs (ND-06 Diyana, ND-07 Junana, and ND-12 Yemilah) three onshore rigs (ND-08, ND-09, and ND-11), and five water-well rigs (ND-81, ND-82, ND-83, ND-84, and ND-85)

1988 The Ground Water Research Project was commenced in Al Ain in association with the United States Geological Survey.

1989 - 1993 NDC increased its drilling power to 10 offshore and 10 onshore rigs by acquiring. Rig ND-14 Al Mariyah, ND-18 Beynouna, ND-19 Brakah and ND-20 Delma joined the offshore fleet, and rigs ND-16, ND-17, ND-21 and ND-22.

1994 NDC commissioned the construction of a 19-storey Head Office building.

1995 Acquisition of one new onshore rig ND-23 and one water-well rig ND-85.

1998 NDC acquired two onshore rigs, ND-24 and ND-25. A total of 13 onshore, 10 offshore and six water-well rigs are in operation. The new Head Office building, located on Al Salam Street, was inaugurated.

1999 Rig ND-24 started operation on the 4th January 1999. The offshore rig ENSCO-96 was hired and started operation on 6th July 1999.

2000 The offshore rig ENSCO-97 was hired and started operation on 9th October 2000. A total of 13 onshore, 11 offshore and six water-well rigs were in operation.

2001 NDC hired two offshore rigs; rig Noble Kenneth Delaney and Noble George McLeod for ADMA-OPCO. Both rigs started operation in June 2001. On the 27th June 2001, NDC entered into a contract with M/s Cooper

Manufacturing Corporation of USA to purchase three new fully mechanised onshore drilling rigs. Rigs ND-04 Al Ghallan and ND-22 were awarded the best performing rigs for their achievements in Lowest Non Productive Time (NPT), Lost Time Injury (LTI), Maintenance backlog as well as receiving the highest performance hours from NDC's clients.

- 2002 NDC Established the Drilling Practice School (DPS), for UAE nationals. After thirty years of operations, the NDC management, in its strive for excellence, successfully changed the logo to confirm the new dynamism.
- 2003 The three new rigs ND-31, ND-32 and ND-33 started operation in Al Dhabiya Island and they proved to be environmentally friendly.
- 2004 NDC received the new, top of its class, multi-purpose service vessel (MPSV), Al Ghwaifat, to start a new line of business in NDC. The Vehicle Monitoring System was launched and installed in all NDC vehicles in line with HSE requirements. A new onshore rig ND-34 started operation.
- 2005 Rig ND-03 Al Ittihad was operational again after a major Rig Integrity Assurance Programme (RIAP). NDC obtained "Wire Line Vehicles" to start a new line of business. NDC is most recent state of the art rig ND-35 Al-Hail was received. Rig ND-17 achieved 10 years of service without Lost Time Incident (LTI).
- 2006 Rig ND-01 achieved 10 years of service without LTI. Rig ND-07 Junana was operational again after a major (RIAP).
- 2007 NDC received three awards: ADNOC HSE Award 2006, ISO 14001: 2004 Certificate and Sheikh Khalifa Excellence Award.
- 2008 NDC received ADNOC HSE Award 2007-Health category.

### Board of Directors

Mr. Abdulla Nasser Al Suwaidi	Chairman
Mr. Mohamed B. Al Qubeisi	Member
Mr. Mohamed Omar Abdulla	Member
Mr. Abdulla S. Al Suwaidi	Member
Mr. Mattar Hamdan Al Ameri	Member
Mr. Omer Ahmed Suwaina	Member

### Board Advisory Committee

Mr. Mohd Juma A. Juma	Chairman
Mr. Bader Al Mansouri	Member
Mr. Ali Khalifa S. Al Shamsi	Member
Mr. Murshid S. Al Romaithi	Member
Mr. Ahmed A. Wahid Al Hammadi	Member

### General Management

Mr. Abdulla Saeed Al Suwaidi	General Manager
Mr. Abdulrahman Bamajboor Al Sayari	Assistant General Manager - Operations
Mr. Jean H. Normand	Assistant General Manager - Technical
Mr. Suleiman N. Al Maskri	Assistant General Manager - Administration
